## Enhanced Features on Project Euclid

### Features for Institutions

- COUNTER- and SUSHI-compliant usage statistics exclusively provided by Project Euclid
- perpetual access to purchased current content
- term access to all available archival content
- library subscription management tool
- interoperability through the Open Archives Initiative
- Shibboleth-enabled user authentication (in select countries)
- No ongoing maintenance fees

### Features for Researchers

- integration with all math content hosted on the Project Euclid platform—including many open-access resources—on one site with full-text search, discovery, and research tools
- articles and references to MathSciNet (Math Reviews), zbMATH, arXiv, and CrossRef
- clearly rendered formulas and symbols on all browsers through the MathJax display engine
- responsive design for use on a variety of screen sizes
