

# Great Journal Publishing

## EDITING AND PRODUCTION

- Our in-house editing and production team specializes in mathematics publishing and technology.
- We use the latest LaTeX composition tools and MathJax, so mathematical language is displayed beautifully online and in print.
- We provide a robust, fully supported manuscript submission and peer-review system.
- Advance-publication options are available.
- Project Euclid provides reliable and feature-rich digital hosting and discovery services to help readers find your journal.

## MARKETING AND SALES

- We have a track record of raising the global profile of our journals, increasing the volume and quality of submissions.
- Each journal receives customized design and marketing attention.
- We market journals individually and also in digital journal collections to scale up library distribution.
- We promote journals at international mathematics conferences.
- An international network of sales agents works with our team to disseminate mathematics worldwide.

## RELATIONSHIP MANAGEMENT

- Publishing partners can depend on frequent and transparent reporting.
- Editorial offices and societies receive sustainable financial returns.
- Our journals program grows selectively, and every journal is a vital partner.

## Duke University Press Mathematics Journals

*Annals of Functional Analysis*

*Banach Journal of Mathematical Analysis*

*Duke Mathematical Journal*

*Kyoto Journal of Mathematics*

*Notre Dame Journal of Formal Logic*

All Duke University Press mathematics journals are hosted on Project Euclid.

## Find the Best Fit for Your Journal

**DUKE**UNIVERSITY  
PRESS

# Mathematics Publishing

Working with the people at Duke,  
I learned enthusiasm.

—Tetsuji Miwa, past Managing Editor,  
*Kyoto Journal of Mathematics*

## By the Numbers

- One of the world's largest university presses, we publish over 50 journals and 120 books each year.
- We disseminate our journals to libraries in over 85 countries.
- Our journal editorial offices are spread across eight countries and four continents.
- We have been publishing mathematics scholarship for over 80 years.

## MISSION DRIVEN

We move fields forward by anticipating innovative directions in scholarship.

We will work to make your journal the best version of itself, be it the flagship in its field or a young journal seeking to find its place.

## NOT FOR PROFIT

As a thriving university press, we provide sustainable financial returns without compromising our scholarship or our not-for-profit academic mission.

## GLOBAL

Our international reach in marketing and sales is competitive and growing. We provide the extensive publishing and discovery services that you would expect from larger publishers.

## COLLABORATIVE

We form strong, inclusive partnerships. Journal editors receive personalized attention throughout the publication process.
